Oliver Printing & Packaging Company Acquires Heidelberg Speedmaster

TWINSBURG, Ohio – October 25, 2017 – Oliver Printing & Packaging Company, a leading provider of print, display and packaging services, today announced the acquisition of a Heidelberg Speedmaster CX102, a industry leading printing press used worldwide.

With speeds of up to 16,500 sheets per hour, the Heidelberg Speedmaster CX102 easily processes all materials, from lightweight paper to rigid paperboard. Additionally, the CX102 allows for a fully automated process for rapid change over from job to job. This makes it easy to operate and to control the process, as well as to minimize make-ready times, energy consumption and paper waste all while increasing cost efficiencies.

“With this addition, we further enhance our flexibility and responsiveness to meet and exceed our customers’ expectations for speed to market,” said George Oliver, president of Oliver Printing & Packaging.
